

# Ian Denham

**Facilities Director  
February 1989**

## Background:

From Bourne, England and Cincinnati, OH, I have experience in sheet metal manufacturing, plant engineering and design, as well as an education and certification in engineering, water and wastewater plant operation. And on those rare occasions when everything mechanical is working at the same time, I love to lead hikes or guide rafts through whitewater.

## What attracted you to The Mountain?

I was attracted to The Mountain because of the location and the opportunity to use my skills to contribute to the future.

## What would you like to accomplish in your work at The Mountain?

To eventually get to the point where the facilities at The Mountain will need less maintenance and upgrade; also when the grounds and buildings are safe and accessible for all.

## About your family:

Shelley and I have been married for 35 years – my daughters, Gillian, Megan and Joy are grown now. And I have two grand-girls, Ella and Kaylee who I like to spend as much time with as possible.

## What do you find most important in life?

My family – here and in England, my work and my tools.
