What attracted you to The Mountain?

The Great Outdoors, from the mushrooms to the limitless expanse of the stars above – the commitment to the environment and genuine efforts to save humanity from itself.

What would you like to accomplish in your work at The Mountain?

To leave my mark on the world – whether it be something I have built or a story I have told to some young people. Everyone has a purpose in life, and you may not ever figure out what it is, so – just be yourself.

What do you find most important in life?

Never stop Learning . . . about Everything! If you can't be at Peace with others, at least be at Peace with Yourself. Always find the humor in a situation or you'll get wrinkles. Think outside the box, stay out of the box, don't even look at the box. Never underestimate the Power of the Absurd.
